

The Only Truly  
Global LRIT Solutions

# Iridium **LRIT**

Global LRIT Compliance Solutions

You're covered  
across the  
seven seas –  
and then  
some

LRIT (Long Range Identification and Tracking) equipment is now a mandatory requirement for ships on international voyages including passenger ships, high-speed craft, mobile offshore drilling units, and cargo ships of 300 gross tonnage and above.

With our unique global coverage, Iridium is the perfect choice for your LRIT requirements. We offer a range of reliable, high-performance dedicated LRIT devices.

## Dedicated, Reliable and Secure

From pole to pole, Iridium LRIT is always connected and backed by unmatched network quality and world-class technical support. For ships operating in Sea Area A4, Iridium is the only LRIT-compliant option available.

## Exceptional Performance

Iridium LRIT is enabled by Iridium's SBD (Short Burst Data) service, the most efficient method of tracking and monitoring mobile assets and information. Iridium LRIT combines our pole-to-pole coverage and high-quality, low-latency network with high-quality partner-manufactured equipment based on the Iridium 9601 Short Burst Data Transceiver.

## Flexible Options

Iridium and its global network of application service providers (ASPs) offer a range of flexible dedicated Iridium LRIT devices to meet your specific requirements.

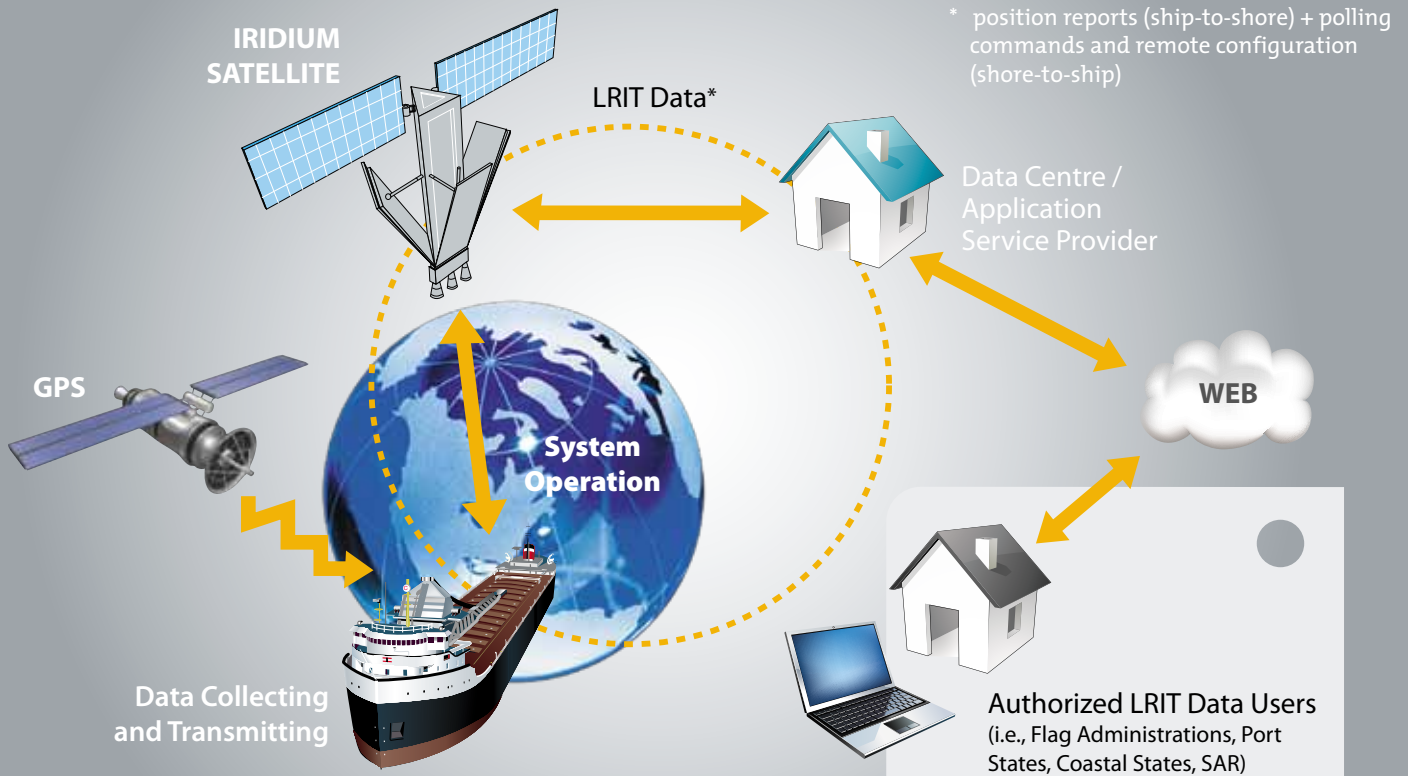

For more information about Iridium-certified LRIT devices, visit the Solutions section at [www.iridium.com](http://www.iridium.com).

## Iridium SBD – Reliable Global Asset Management

Iridium LRIT is just one example of the value of Iridium SBD solutions for managing assets and information everywhere on the planet. Organizations worldwide in the maritime, aviation, aeronautical, government and military, oil and gas, transportation, utilities, heavy equipment, mining, and forestry sectors, depend on hundreds of integrated purpose-built machine-to-machine (M2M) Iridium SBD applications to reliably protect core business assets.

**Iridium LRIT is a dedicated, reliable and secure alternative – and it is the only option in Sea Area A4.**

# The Only Truly Global LRIT Solutions

## Network Features

- 24/7 satellite network availability
- Low latency data links
- Reliable acknowledged network protocol
- Single global agreement (no roaming)

## Iridium LRIT Features

- Stand-alone, dedicated terminal ensures interference-free operation
- Hardware complies with IMO Resolution MSC.263(84) and MSC.1/Circ.1296
- Standard messaging format
- Built-in GPS

## Transceiver

- Iridium 9601 Short Burst Data Transceiver

Only one communications company connects the entire globe

Iridium commands the world's furthest reaching network, making it the only truly global communications company with solutions that span from pole-to-pole. Iridium voice and data products provide superior communications solutions that allow global companies, government agencies and individuals to stay connected everywhere. With a unique, global ecosystem of partners, Iridium continues to create new, high-value capabilities that are leading the world into a new era of communication.
